Diabetes Update

Master Robert Hotel,
Hounslow, Middlesex

12th March 2010

Update your practice in the management of Diabetes

Get up to date with the latest guidelines for the management of diabetes. This one day course will ensure that your knowledge and skills are based upon the best available evidence.

The course is intended for General Practitioners, Practice nurses and all practitioners who are required to manage the care of the diabetic patient.

Whatever your clinical area and whatever your level of experience, the Diabetes Update course will help you to develop your skills further and give you more confidence to make the right decisions in your practice.

The course is delivered by an experienced educator and practitioner who is expert in diabetes.

Course Content

- Historical perspectives on the management of diabetes
- New diagnostic categorisation of diabetes type 1,2,3,4.
- Insulin management versus Oral Hypoglycaemic Agents (OHA)
- Dietary management of diabetes
- Sick day rules
- Diabetic emergencies
- Current policies and guidelines
- National Service Framework for Diabetes Mellitus
- Feedback from the British Diabetic Association Conference 2010
