ECG Update

The Master Robert Hotel, Great West Rd, Hounslow

8th March 2010

Do you want to improve your ECG skills?

ECG interpretation is one of the key skills for healthcare, and keeping those skills up to date is vital to effective decision-making.

"This course helped me a lot and has made me feel more at ease now when I look at an ECG"
Ann, GP

Whatever your clinical area and whatever your level of experience, the ECG Update course will help you to develop your skills further and give you more confidence in your practice.

"The instructor was very patient and set a pace that made sure that we all learned what we needed to know"
Jo, Staff Nurse CCU

The course is delivered by an expert in ECG who is also the author of **"The ECG Workbook"**

6 hours CPD

Who is this course for?

Any healthcare professional that has to interpret ECG in their practice. The course is designed to cater for both primary and acute care practitioners, and uses clinical scenarios to give the learning more relevance to the real world of cardiology.

The course content includes:

- Revision of the concepts of ECG
- Atrial and Ventricular arrhythmias
- AV and bundle branch blocks
- Cardiac Axis
- Ischaemia and infarction patterns
- Hypertrophy and strain pattern
- Interactive practice
- Multi-choice quiz

All printed course materials provided and certificate of attendance.
Lunch and refreshments included.

£75 per person
