

Management of Hypertension

Master Robert Hotel
Hounslow, Middlesex

26th April 2010

This course will give you a deeper insight into the fundamental principles behind this challenging and widespread condition.

Beginning with the pathophysiology of Hypertension, the course will build upon this knowledge so that an evidence-based approach to the pharmacological and the non-pharmacological therapies for management, can be better understood.

The course uses a range of clinical scenarios and other interactive activities to reinforce this essential knowledge.

***Management of Hypertension* was designed with qualified nurses in mind and will appeal to nurses working in both primary and secondary care settings.**

This is a one-day course that runs from 9.30am to 4.30pm

Course content:

- *Mechanisms of blood pressure control*
- *Pathophysiology of hypertension*
- *Pharmacological therapies for hypertension.*
- *Non-pharmacological therapies*
- *Assessment and recognition*
- *Lifestyle factors*
- *Current guidelines for practice*
- *Clinical Scenarios*

All printed course materials and an individualised certificate of attendance is included.

Lunch and refreshments provided.

£68 per person
